CONTRACTOR QUESTIONS AND GOVERNMENT RESPONSES

1. Question: Section L2(c) on page 54 of the RFP states that “Each offeror may submit one or more proposals.” Can the government clarify if this means that each offeror will submit one proposal to qualify for an IDIQ contract and may submit proposals for multiple future task orders under the IDIQ thereafter? Or may each offeror submit multiple proposals for the solicited IDIQ contract in response to this RFP?

Response: An offeror may submit multiple proposals for the IDIQ contract in response to the RFP.

2. Question: Per Section L3 (b) (1) on page 54 of the RFP, can the government please confirm that Factor 1 requires: 1) a minimum of five projects (individual task orders or single project efforts); and 2) all relevant contracts (IDIQ-type, multiple-task order contracts) within the past five years.

Response: This factor requires a minimum of five (5) projects (task orders and/or single project efforts) with at least one (1) being design/build.

3. Question: Per Section L3 (b) (1) on page 54 of the RFP, offerors must submit experience information in Factor 1 “for themselves and for any proposed division, subcontractor or teaming contractor whose effort on this contract shall significantly influence work performance.” Should the offeror submit designer A/E experience information in Factor 1?

Response: Yes.

4. Question: Section L3 (b) (4) on page 56 of the RFP states that the offeror must provide the Past Performance Questionnaire to “each of the companies/agencies submitted by the offeror in response to this solicitation.” Is the questionnaire required for IDIQ contracts submitted in Factor 1 as well as for individual projects submitted in Factor 1?

Response: Other questionnaires may be submitted but at a minimum a questionnaire should be provided for each project submitted in response to Evaluation Factor 1.

5. Question: Subfactor 5 - Project Controls (Management Approach) and Evaluation Factor 3 - Scheduling Methodology both ask for similar information about the contractor's approach to scheduling. Could you please provide further detail on how these sections should differ? If it is the same information you are requesting, should we duplicate the schedule write-up in both sections?

Response: Under (v) Subfactor 5 - Project Controls: The Government wants to understand and evaluate the processes and procedures (project controls) that the contractor will implement to effectively administer and manage a project's schedule, scope, cost, and risks to determine when a project is out of tolerance and the actions (process, procedures, approaches) that would be implemented to bring a project back into tolerance.

Under D. Evaluation Factor 3 - Scheduling and Methodology: A contractor's schedule is their plan as to how they are going to effectively manage and execute contract work for the successful completion of the contract. The Government wants to understand a contractor's ability to develop practical schedules and how they are going to effectively manage these schedules. Furthermore, the Government wants to understand a contractor's ability to develop and manage CPM and cost loaded schedules. Depending on how a contractor responds to (v) Subfactor 5 - Project Controls, there could be some overlap.
